

Vibrant Health

FAMILY CLINICS

To: Pharmaceutical Representatives

From: Vibrant Health Family Clinic Providers

Date: April 16, 2014

We ask that our pharmaceutical representatives review this letter regarding our status on medication samples.

In effect since 2012, we no longer accept general sample medications.

We will not accept any telephone sampling or requests.

We understand that there may be individual Healthcare Providers that wish to maintain their own supply of sample medications. This will be allowed and the individual Healthcare Provider will be responsible for requesting information as well as signing and accepting their own samples. Healthcare Providers must provide secure storage of the sample in their own work area. Please note secure storage space is very limited and many may not be inclined to do so. Inquiries for these physicians must be directed to the individual provider or their staff.

Please note that general pharmaceutical representative detailing will no longer be the standard.

We appreciate your cooperation in this process.

With Kind Regards,

Vibrant Health Family Clinics Healthcare Providers
